

2-Tier Sliding Upper, Fixed Lower Bike Rack

BREZSTX2TFL

- Each rack can park 2 bikes
- To use top tier, simply pull out the sliding base rail until it reaches its pivot point, then fold it down for easy bicycle positioning
- Product is available in a galvanised finish

This rack is the perfect choice to optimise your bike storage area capacity. These racks achieve increased efficiency through tiered storage. The top tier features gas lift for ease of use, the bottom level is static.
