

# Square Wall Mounted Vertical Bike Rack

## BREZHLDSQWMPC

- Maximises storage capacity
- Easy installation
- 500 - 700mm spacings

This robust bike rack, crafted from mild steel and hot-dip galvanised for durability, is designed for wall mounting and securely holds one full-size bicycle. It allows for complete security by enabling both the wheel and frame to be locked. The bike is supported on prongs, protecting the rims from potential damage. Suitable for both indoor and outdoor use.

### Installation guide

Install Square Wall Mounted Vertical Bike Rack to required areas as marked in accordance with manufacturer's recommendation. For the best results, we can provide installation.

### Application

Exterior & Interior

### Finish

Powder coated
