

# Wall Mounted Horizontal Bike Rack

## BREZHORSQWMP

- Black powder coated
- Easy installation
- Saves space

The Wall Mounted Horizontal Bike Rack is designed to securely hold two standard-framed bikes, making it an efficient, space-saving storage solution for areas above car bonnets. This clever design not only maximises available space but also provides peace of mind, allowing cyclists to lock both the main bike frame and both wheels for enhanced security. Ideal for compact spaces, this rail system is perfect for adding organised, secure bike parking to garages, car parks, or any space where efficiency and security are a priority.

### Installation guide

Install Wall Mounted Horizontal Bike Rack to required areas as marked in accordance with manufacturer's recommendation. For the best results, we can provide installation.

### Application

Exterior & Interior

### Finish

Powder coated
